SUBJECT { **GENERAL** Operations  
**SPECIFIC** Transmittal of Tape and related material for Missions A-2009, A-2010, and A-2013;  for Missions A-2009, 2010, 2013

25X1

1. Transmitted herewith are the tapes, technician report, navigation plots and overlays for Missions A-2009, A-2010, and A-2013.

2. Comment for Mission A-2010. Point B to Point E was not plotted prior to the submission of the . Due to a combination of poor film quality, partial cloud cover, and generally featureless terrain, it took several more hours to complete this portion. Vehicle failed to identify point K, turned  $1\frac{1}{2}$  minutes too soon, passed over Budapest, and then corrected to course.

3. Comment for Mission 2009. Between C and D the vehicle emerged from a continuous undercast 27 miles off course, connecting by point D. Vehicle made deliberate course deviation between G and H while observing Air Field at F. From H to I evenly scattered cumulous clouds over generally featureless terrain precluded plotting. Vehicle penetrated rather deeply into Yugoslavian Air Space. Vehicle failed to identify point L and overshot turn point 25 miles, correcting to course past point N.
